### About CINCO's eStatements Service

CINCO Family Financial Center Credit Union offers eStatements - an electronic version of your paper statement. This service allows you the ability to view your account statements online 24 hours a day, 7 days a week. Using your current email address, you can receive a statement notification automatically each month delivered directly to your email account! Previous statements will remain online for up to two years. Online access replaces paper statements.

### Saves Time

The statement will be available more quickly than a printed statement. (eStatements are usually available 2-3 days before mailed statements)

### Saves Money

It's simple and it's free. This service saves printing and postage costs, which means CINCO can use the savings to bring more and better services in the future.

### Saves Space

No more paper filing. You are able to save your statements on your computer and print whenever you like. You can access your statements anytime, day or night as far back as January 2000.
